LASER BASE™

Basic Description:

The object of the geme is to defend four eerth space ships in the first sequence of the game

The attack is leunched by meteorites and foreign objects in space as well as spece crefts dropping bombs.

The attacking force can be destroyed by a laser beam fired from any of the players' spece ships The direction of the laser beam is controlled by a treckball, while the position of the attacker determines which ship fires the laser

If the pleyer successfully goes through severel screens, which become more difficult after eech screen, he will be launched deep in outer spece with a single ship to defend.

During this screen, the etteckers are numerous and travel at very high speeds Depending on the skill of the player during this attack, a number of bonus ships are awarded for extended pley

Features:

1. Bonus screens are added to the score atter completion of each screen
2. One or two players
3. The operator cen select different settings to make the mechine more difficult
4. High score will remein on the machine until it is topped
5. The sounds and graphics are highly attractive and are an integral part of the player appeal
6. All formica cabinet
7. Separate locked cash box (ell metal)
